

Engineering Maintenance Training 2010 Schedule

Course Acronym	Course Code	Class Title	Description	StartDate	End Date
FRAT	1007	FRA Track Safety Standards	This course covers FRA track standards for Class 1 through Class 5 track, including a thorough review of reporting requirements. The course also includes field demonstrations and practical exercises in using track inspector's tools to take track measurements. (No prerequisite; one-week duration)	06/07/2010	06/11/2010
FRAT	1009	FRA Track Safety Standards		06/14/2010	06/18/2010
FRAT	1010	FRA Track Safety Standards		06/21/2010	06/25/2010
FRAT	1011	FRA Track Safety Standards		07/26/2010	07/30/2010
FRAT		FRA Track Safety Standards		08/02/2010	08/06/2010
FRAT	1012	FRA Track Safety Standards		09/13/2010	09/17/2010
FRAT	1013	FRA Track Safety Standards		09/27/2010	10/01/2010
FRAT	1014	FRA Track Safety Standards		10/18/2010	10/22/2010
FRAT	1015	FRA Track Safety Standards		10/25/2010	10/29/2010
FRAT	1016	FRA Track Safety Standards		12/13/2010	12/17/2010
BI	02	Bridge Inspection	This training will enable a bridge inspector to identify required maintenance items and major structural deficiencies that require speed restrictions or prohibit traffic until remedial action has been taken. The course includes a pre-test, in-class training, field trips and inspections of various structures, and concludes with a final exam. (No prerequisite; 1 week duration)	11/01/2010	11/05/2010
