

Locomotive Electrical Training 2010 Schedule

Course Acronym	Course Code	Class Title	Description	StartDate	End Date	Fast Track
		Locomotive Electrical Training				6/7/2010 - 7/2/2010
		Locomotive Electrical Training				10/25/2010 - 11/19/2010
RRTM142		Basic Locomotive Electricity	This is the first in a series of four courses in Locomotive Electrical. This course is designed to introduce the student to the basic electrical theory and concepts related to locomotive electrical systems.			
RRTM143		EMD Low Horsepower Electrical System	This is the second in a series of four courses in locomotive electrical. This course is designed to introduce the student to the operation, maintenance, and troubleshooting of EMD Low Horsepower locomotive electrical systems.			
RRTM144		EMD Electrical Basic	This is the third in a series of four courses in Locomotive Electrical, this course is designed to introduce the student to the basic operation, maintenance, repair requirements and trouble shooting of EMD diesel engines and support systems.			
RRTM145		GE Dash 8/9 Electrical Systems	This is the last in a series of four courses in Locomotive Electrical. This course is designed to introduce the student to the basic operation, maintenance, repair requirements and trouble shooting of GE Dash 8/9 locomotive systems.
